

New Product Launch

JUMO heatTHERM-AT – Surface-mounting thermostats

The solution for the special requirements of heating engineering

- Single or twin thermostats as:
 - temperature controller TR
 - operating temperature monitor TW
 - protection temperature monitor STW
 - protection temperature limiter STB
- Modular system reduces the number of different types
- Three styles in one unit:
 - thermostat with rigid stem
 - capillary thermostat
 - pipe surface thermostat
- Push In® terminals save time and cut costs during the electrical connection
- Highly functional, user-friendly, easy to mount

- Compensation for ambient temperature ensures stable switching point
- Contact rating 16A, 230V AC
- IP54 enclosure protection
- Room thermostat (option)
- Compact design
- Large-scale production delivers excellent price/performance ratio

Main areas of application

- HVAC
- Building automation
- Industrial plant
- District heating substations

Thermostats and Dial Thermometers

- Panel and surface mounting thermostats in TR, TW, TB, STW and STB versions
- Room thermostats
- Warm-air thermostats
- Ex thermostats (ATEX)
- Electronic thermostats

- Dial thermometers as indicating and control instruments
- Bimetallic temperature switches
- Electronic temperature indicators with transmitter
- Timers
